

Update 29/03/20

We are in changing times and require to be both observant of government rules and of the welfare of our neighbours. Today we can still enjoy access to allotments **but if the following rules are not followed the allotments may face lockdown and access removed for all.**

1. If you are classed as 'SHIELDED' and high risk, please inform secretary so we are aware.
2. Allotments are regarded as exercise, but it is advised not to travel by public transport.
3. Only Plot Holders can work the plot no visitors are allowed without prior authorisation.
4. If you can't work the plot please notify us so we can arrange alternative support
5. Children must always be supervised and remain on plot.
6. Working other plots is only permitted when authorised.
7. Cleanliness, washing and wearing of gloves is very important and hand washing must be via taps not
8. Tools must not be shared

Access to upper plots is restricted to upper gate
