

## Allotment Update 6th April 2020

Thanks to all who adopted the guidelines we issued last week and used and accessed the allotments responsibly.

### Upper Plots Gate

Having padlocked the farm entrance to the upper plots to ensure we comply with the Farms lockdown we had problems yesterday with the East ferry gate entry lock on Sunday. We resolved the issue and it is back in working order. However, please be aware and do not force the lock. If you have a problem, please contact me or another officer asap. An emergency contact number is posted on all notice boards.

### Fires and BBQS

As this is a respiratory virus, it is very important that we do not aggravate in situation. Therefore, until further notice fires and BBQs are not allowed on both the upper and lower plots.

If a fellow plot holder starts a fire, please request it be put out immediately. We must all be aware that fires and BBQs could be reported by others and viewed as an abuse of the 'exercise" guidance we are currently enjoying and could put into conflict with authorities and spoil the access we currently enjoy.

### Helping others

A number of plots are being tended by their plot holders under authorisation. It is important we help others and give them something to look forward to. If anyone is 'shielded' we ask they let us know so we can help in these strange times.
